Ancient Greek Farmers | CoolaBoo - Education Site

Farming in ancient Greece was difficult due to the limited amount of good soil and cropland. It is estimated that only twenty percent of the land was usable for growing crops. The main crops were barley, grapes, and olives. Grain crops, such as barley and wheat, were planted in October and harvested in April or May.

Farming in Ancient Greece - History Link 101

During the early time of Greek history, as shown in the Odyssey, Greek agriculture - and diet - was based on cereals (sitos, though usually translated as wheat, could in fact designate any type of cereal grain).In reality, 90% of cereal production was barley. [citation needed] Even if the ancients were aware of the better nutritional value of wheat, the growing of barley was less demanding and ...

Agriculture in ancient Greece - Wikipedia

In Ancient Greece, the economy was not as agriculture-based as in many other ancient civilizations. That's because Greece has many mountains and the soil is not very good for growing crops. Still, there were plenty of farmers in Ancient Greece. They raised sheep and goats and grew barley, grapes, and olives. Let's explore some interesting facts about farmers in Ancient Greece.
