Sharepoint 2010 Document Id Persistence

Officially the default behaviour of document ids within SharePoint 2010 is "non-persistence" . i.e. a document copied from one location to another location within SharePoint will pick up a new Document ID. In the case of sites built from the blank site template documents moved/copied within the site will keep the same document ID. i.e. document A copied to document A(2) ,both have id docidblank-0001.

Document ID Persistence - Blank Site Templates do not ...

During copy operations SharePoint Server 2010 assigns a new document ID. You can control this by setting a Boolean operator
